CONFERENCE ROOM 1: OPEN DAY - 10AM TO 3PM, EVERYONE WELCOME

Astute are happy to present the following manufacturers, each of whom will be displaying information with samples of the products and services that they provide.

DELKIN DEVICES Invent. Design. Deliver.

Delkin Devices, Inc. is a US manufacturer of OEM flash memory with over 20 years of expertise providing customized, solid state drives and data storage solutions. Delkin's flash memory storage offers enhanced shock and vibration specifications, extended temperature ranges for extreme environments and a variety of customized features.

micross components

Micross is an AS9100 certified franchised supplier of bare die offering semiconductor packaging and test solutions from both our UK and USA facilities and provides extended component supply to the military, space and commercial markets. Our facilities also provide the supply of Pb as a terminal finish to electronic devices

National Hybrid Inc.

National Hybrid Inc & API Technologies provides engineered systems, components, sub-systems and secure communications to the global defence and aerospace industry. Customers, including the governments of the U.S., Canada, the United Kingdom, NATO and the European Union, and Fortune Global 500 companies, rely on API's innovative design, engineering and manufacturing solutions.

CONFERENCE ROOM 2: 11AM, ASTUTE ANTI-COUNTERFEIT WORKSHOP

Please note that attendees for this workshop have been pre-selected by Joanne Wilkinson and Peter Beetlestone, BAE Systems.

With Mark Shanley, Global Business Manager, Military, and Tony Hall, QA Manager. The counterfeit electronic components minefield, if not taken seriously is a disaster waiting to happen for any company. No one is safe in the war against counterfeit and sub-standard material entering the supply chain and getting onto your boards. There are no exact figures available on the extent of counterfeit product in the market however it is estimated that it costs the UK electronics market around £1bn per year. This presentation shows how Astute keep ahead in the fight to protect you the customer.
