

This statement is Micross Components Bare Die Distribution Division's position regarding REACH, the European Union Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the **Registration, Evaluation, Authorization and Restriction of Chemicals**.

Micross Components Bare Die Distribution Division does not produce substances or preparations which need to be registered according to the REACH regulation. The products supplied are 'Articles' as defined in REACH Article 3(3). There is no intended release of substances subjected as to REACH and therefore registration does not apply for our products.

Suppliers of articles must provide recipients with information on SVHC (Substances of Very High Concern). Our bare die products supplied currently do not contain substances on the REACH SVHC Candidate List. Therefore, the Reach Article 7(2) to notify ECHA (European Chemical Agency) if an article contains >0.1 mass % of an SVHC and tonnage exceeds 1 tonne per importer per year is presently not applicable to us.

As an environmentally responsible company, Micross Components Bare Die Distribution supports REACH and other legislations with the aim to improve the protection of our environment and human health and safety. Micross Components Bare Die Distribution will continue to monitor the developments of the REACH legislation to ensure continuous compliance.
