

## Micross at the COG Conference

Micross components will be exhibiting some of its many capabilities and components at the COG Conference being held in York on the 28<sup>th</sup> to the 30<sup>th</sup> of June 2011. The venue is the Royal York Hotel, having an ideal city centre location with on-site parking and in easy reach of York mainline railway station. The City of York has a long history dating back to Roman times, but it is for its medieval buildings that the city is perhaps most famous, epitomized by the awe-inspiring York Minster, which has dominated the skyline of this walled city since its completion in the fifteenth century.

For your Diary ....
