Microcross Components Received 2009 Supplier of the Year Award from Teledyne EMS

Hatfield, PA- Microcross Components, Inc is proud to announce that their Hatfield, Pennsylvania facility, (formerly known as North Penn Technology) recently received the 2009 Supplier of the Year Award from Teledyne EMS presented at their supplier conference on February 18, 2010 in Lewisburg, Tennessee. During the conference, Teledyne EMS stated that one of Microcross' strengths is that "they don't just call with a problem, they offer a solution".

The Supplier of the Year award is the highest honor a supplier can receive from Teledyne EMS. Each supplier is rated on every order in terms of quality, price delivery and service and at the end of the year, the supplier with the best rating score is Teledyne EMS' Supplier of the Year.

About Microcross Components:

Microcross Components is a global provider of specialist products & services and distributed components for the electronics community. Our specialty is in solutions for hi-reliability and state-of-the-art electronic applications which span across commercial, industrial and hi-reliability markets.

We represent a single source for specialty electronics able to provide leadership in the design, manufacture, logistics and distribution processes necessary to realize and support an application from start to finish.
