Change Technology of matrix from VRAM to SRAM.

Dear Valued Customer,

Austin Semiconductor, Inc. is notifying our valued customers, of a Class 1-Product Change Notification [PCN], to our 64Kb SRAM device group within its Hi-Reliability product family. This PCN is for a product End Of Life (EOL) announcement and effects all 64Kb SRAM family offered by Austin Semiconductor and identified as our; MT5C6401, MT5C6404, MT5C6405 and MT5C6408 device families, as well as Multiple DSCC-SMD drawings, which are listed in full detail below. This 64Kb SRAM family grouping is currently offered in Industrial, Mil-Temp and full military processing and packaged in multiple speed grades and package footprints.

Reason for our End of Life notification is Austin Semiconductor has been notified by its semiconductor supplier that the die base for our 64Mb SRAM family of Hermetic components has gone End of Life.

Our Product collateral for the MT5C6401, MT5C6404, MT5C6405 and MT5C6408 families of 64Kb SRAM devices will be placed in the Obsolete product section of our website for those customers who may need this material for future reference. The following part matrix identifies the effected SRAM components.
