

State of the Art, Inc.

Micross is not limited to the manufacturers above.
Contact your sales representative for all your passive component needs.

Leveraging our
**PASSIVES
LINE CARD**
for **YOU**

Micross offers an extensive range of passive components including ceramic and tantalum capacitors, thin film silicon chip resistors, thin or thick film SMD or through-hole resistors, and resistor networks.

We specialize in hi-grade passives for military, down-hole, high temperature, and space applications with MIL-SPEC and commercial grade components. Our technical expertise, combined with our product knowledge, allows us to be flexible in working with RoHS and Non-RoHS terminations such as Palladium-Silver, Gold, Nickel- Barrier (100% Tin or 90% Tin/10% Lead).

We can also meet your requests for additional test requirements of Class H and K; Group A, B or C; Destruct Samples; or any other specialty requests you may have.

For additional information and sales inquiries, please call **1.855.426.6766**, email sales.americas@micross.com, or contact one of our sales team members listed below.
